

Dear Student,

You may qualify for a Michigan Tuition Grant or Competitive Scholarship, however:

1. You did not list CCS **first** on your FAFSA (Free Application for Federal Student Aid). The state considers whomever you list first on your FAFSA your “school of choice,” and will send any money you are eligible for to that school. If your school of choice is not correct, you may lose the funds, especially if your current school of choice is a public institution. This is of consequence because some of the state’s money is only available to students attending private schools.

OR

2. You answered a question incorrectly on your FAFSA, such as the state residency question, which would preclude you from receiving funds you may be eligible for.

In either case, please complete the Student Record Change form (over) and send it back to CCS as soon as possible. ***If you were selected for verification and need time to collect the required documents (i.e. federal tax return), please don’t wait to send this form. Any delay could cause a loss in Michigan Tuition Grant or Competitive Scholarship eligibility.***
